About

I'm a product and growth marketing professional with hands-on experience across the full cycle from shipping 14 features across 4 agile sprints at a tech startup, to managing Meta ad campaigns, building content calendars from scratch, and pitching to international buyers at Trade Expo Indonesia. My background spans product management, digital marketing, and operations across startups in Jakarta. I genuinely believe the best product people understand go-to-market, and the best marketers think like product managers. Right now I'm focused on roles where I can sit at the intersection of both: helping early-stage or growing companies build things people want and actually reach them. Open to Product Marketing, Growth PM, or Digital Marketing roles.

Work Experience

Digital Marketing | LaundryStore · Nov 2025 – Present · 6 months

- Designed and produced **48 laundry franchise packages** across Full Service and Self Service models. Covering equipment specs, pricing tiers, value propositions, and operational requirements. All approved by ownership for client-facing use.
- Designed complete visual identities and outlet branding packages for **2 client brands across 6 outlet locations** (Misel Laundry and Rasaki Laundry). Delivering unified brand systems (logo, color palette, typography) with location-specific design adaptations per outlet, including SketchUp 3D exterior and interior renders, front banners, 2–3 partition ads, brochures, and machine stickers. All produced as print-ready and digital files.
- Managed product listings across Shopee, Tokopedia, and laundrystore.id. Overseeing a catalogue of **182 SKUs** across 10+ brands, including product photo design, description copywriting using self-created templates, and product management across all three platforms.
- Built and maintained a multi-platform pricing spreadsheet to calculate platform-adjusted selling prices across Shopee and Tokopedia, factoring in marketplace fees, profit margins, and price rounding per platform. Ensuring consistent margin protection across the full 182-SKU catalogue.
- Managed laundrystore.id content and product operations. Coordinating with the vendor development team on an ad hoc basis to resolve bugs and implement **8 feature improvements**, including WhatsApp CTA, product filter fix, 'ask for price' option, Indonesian localisation, best seller section, marketplace CTA, product hover zoom, related product display, and promo pop-up.
- Conducted structured competitor benchmarking via Meta Ad Library. Analysed **20 active laundry ad campaigns** across video duration, CTA type, platform distribution, and ad copy tone. Producing a structured dataset to inform future ad strategy.

HR & Marketing | Laundry Trush · Jun 2025 – Aug 2025 · 3 months

- Led end-to-end recruitment for 2 positions via Glints. Screened **100+ applicants**, shortlisted 12 candidates, conducted 6 interviews, and successfully onboarded 2 hires within a 2-week cycle.
- Built and deployed an internal ChatGPT-based AI assistant. Designed from scratch to serve HR, marketing, and finance functions across a team of 11. Functioning as an on-demand resource in an organisation with no supervisor layer between staff and owner.
- Developed **2 fully implemented SOPs** (laundry operations and office workflow) and 7 operational templates, prospect database, content planner, stock tracker, competitor research sheet, P&L tracker, attendance log, and customer wash form. Built as part of a franchise-ready documentation package.
- Defined a **5-KPI performance framework** across 7 roles to standardise performance tracking in a previously unstructured team environment.
- Drafted PKWT employment agreements from scratch for all hires. Customised per role with role-specific KPI clauses, covering full legal structure including job scope, compensation terms, and performance obligations.
- Managed daily Instagram and TikTok content calendar (**7 posts/week**) over a 3-month period, maintaining consistent brand publishing cadence across both platforms.
- Conducted competitive landscape analysis of 4 laundry franchise brands. Producing full SWOT breakdowns with differentiated marketing strategy observations and actionable positioning recommendations across 3 customer segments.

- Conducted in-depth SWOT analysis of 4 direct competitors with strategic positioning recommendations tailored to Laundry Trush, shared directly with ownership.

Marketing Officer (Freelance) | [Circo Farm](#) · Jul 2024 – Feb 2025 · 8 months

- Represented Circo Farm at Trade Expo Indonesia. Engaged international prospects across multiple target markets, initiating B2B conversations and generating qualified leads for the sales pipeline.
- Designed end-to-end brand collateral suite. Company profile, banner, brochure, lanyard, and business cards. Delivered in both print and digital formats using.
- Managed company website content updates and executed targeted email blast campaigns to re-engage existing customers and nurture prospective leads.
- Conducted website-based market research to inform content strategy, aligning messaging with competitive positioning and target audience expectations.

Associate Product Owner | [Solutif](#) · [Internship](#) · Aug 2022 – Dec 2022 · 5 months

- Delivered **14 product features from 0 to MVP** across 4 agile sprints, collaborating with a 6-person cross-functional team (4 developers, 2 QA). Managing full backlog lifecycle in Jira from refinement to sprint review.
- Created and iterated UI/UX designs in Figma in close collaboration with the development team, translating product requirements into testable prototypes.
- Facilitated all scrum ceremonies. Sprint planning, daily standups, reviews, and retrospectives. Ensuring alignment between product vision and development execution.
- Communicated product goals and feature priorities to cross-functional stakeholders including the COO, maintaining a shared understanding of roadmap direction throughout the MVP build.

Product Specialist | [KliknClean](#) · Oct 2021 – Dec 2021 · 3 months

- Co-developed a new pet grooming service branch concept alongside 2 team members. Contributing to product ideation, feature specs, UI/UX prototypes in Figma, and go-to-market planning across a 3-month ideation cycle.
- Analysed and segmented customer data using pivot tables to identify audience clusters, directly informing targeted marketing strategy for the new service launch.
- Developed marketing plans aligned with product launch objectives, contributing to go-to-market strategy and channel prioritisation.
