About

Zaki is the kind of person who, once he's passionate about something, goes all in. Most of his life revolves around creativity, marketing, branding, and copywriting, but skateboarding has become one of the clearest reflections of who he is. It's not just a hobby or a trend to him; it's ambition, discipline, and self-expression combined. He's drawn to the process: falling, getting back up, repeating the same trick over and over until it finally clicks. Skateboarding brings out his competitive side, his persistence, and the quiet determination he carries every day. To Zaki, skating is more than style, it's about progress, consistency, and proving to himself that he can keep leveling up. He carries a calm presence, but underneath it is someone constantly building toward something bigger.

🌟 Trick of the week: Ollie

An ollie is the most fundamental skateboard trick, where the rider and board jump into the air together without using hands. It's done by popping the tail and sliding the front foot upward to lift the board. More than just a trick, the ollie represents balance, timing, and persistence, the first major milestone for every skateboarder.
